

Seclusion & Restraint Reduction Leadership Group Compendium

DRAFT

Following are a list of resources for use by organizations moving in the direction of reducing restraint and seclusion in their programs. These resources include academic journal articles, booklets, tools, manuals, and online resources.

Journal Articles & Publications

Title	Author(s)	Year & Publisher
Creating trauma-informed correctional care: A balance of goals and environment	M.A. Miller & L.M. Najavits	2012; European J. of Psychotraumatology
<p>Rates of posttraumatic stress disorder and exposure to violence among incarcerated people in the US are exponentially higher than rates among the general population. Abrupt detoxification from substances, the pervasive authoritative presence and sensory and environmental trauma triggers can pose a threat to individual and institutional stability during incarceration. The authors explore the unique challenges and promises of trauma-informed correctional care and suggest strategies for administrative support, staff development, programming, and relevant clinical approaches.</p>		
<p>Miller, M. & Najavits, L. (2012) Creating trauma-informed correctional care: A balance of goals and environment. <i>European Journal of Psychotraumatology</i> 3:10 Retrieved online March 17, 2015 from http://www.ncbi.nlm.nih.gov/pmc/articles/PMC3402099/</p>		
Draft example: Policy and procedure on debriefing for seclusion and restraint reduction projects	K.A. Huckshorn	2007; NASMHPD NTAC
<p>Paper describing drafting policy for the three discrete events: firstly, the “immediate post-acute event analysis” and occurs immediately following the S/R episode and with all involved parties including those witnessing the event. The second Debriefing activity, called “Witnessing or Elevating Oversight” and includes a call from the person in charge of the unit where the event took place to a facility executive staff person to relate what occurred 24 hours/7 days a week. The third Debriefing activity is a formal rigorous event analysis</p>		
<p>Huckshorn, K.A. (2007) Draft example: Policy and procedures on debriefing for seclusion and restraint reduction projects. Six core strategies for reducing seclusion and restraint use©. Alexandria, VA: NASMHPD, Retrieved online Sept. 2, 2011 from http://www.wafca.org/trauma%20training/sr%20debriefing%20policy%208%204%2007.pdf</p>		
Effectiveness of Six Core Strategies Based on Trauma Informed Care in Reducing Seclusions and Restraints at a Child and Adolescent Psychiatric Hospital	M. Azeem, A. Aujla, M. Rammerth, G. Binsfeld, & R. Jones	2011; J. of Child and Adolescent Psychiatric Nursing
<p>This empirical study was conducted to determine the effectiveness of the six core strategies based on trauma informed care in reducing the use of seclusion and restraints with hospitalized youth.</p>

Empowering direct care workers who work with children and youth in institutional care	G. Hodas	2005; PA Office of MH & Substance Abuse Services
<p>From the level of the individual child and family to specific child-serving programs to the broader arena of policy, the recognition of the pervasiveness of trauma and the consequent provision of what is known as “trauma informed care” will need to significantly influence our work in mental health and related fields in the future. This report hopes to increase appreciation of the relevance of trauma in understanding clients and meeting their needs while in care.</p>

Harrisburg: PA, retrieved online January 14, 2010 from http://www.parecovery.org/documents/Hodas_Direct_Care_Worker.pdf</p>		
Facilitating the use of evidence-based practice in community organizations.	C. Franklin & L. Hopson	2007; J. of Social Work Education
<p>This article reviews the challenges of implementing evidence-based practices in community organizations and reports on factors that facilitate the use of evidence-based practice in community settings along with future steps necessary for successful translation of knowledge into community agencies.</p>		
<p>Franklin, C., & Hopson, L. (2007). Facilitating the use of evidence-based practice in community organizations. <i>Journal of Social Work Education</i>, 43 (3), 377-404.</p>		
Implementing Trauma-Informed Approaches in Access to Recovery Programs	SAMHSA Technical Assistance Package ATR-3	(nd); SAMHSA
<p>Because ATR 3 grantees serve many justice-involved clients and are seeing an increased number of returned military veterans with diverse trauma histories, implementing trauma-informed approaches has become even more urgent. This TA package gives ATR staff and recovery support services (RSS) and treatment providers.</p>

Models for developing trauma-informed behavioral health systems and trauma-specific services	Ann Jennings	2004; NASMHPD NTAC
<p>This report identifies criteria for building a trauma-informed mental health service system, summarizes the evolution of trauma-informed and trauma-specific services in state mental health systems, and describes a range of trauma-based service models and approaches implemented by increasing numbers of state systems and localities across the country. We have included it here because it has sections dedicated to TIC and TI services for adults as well as children.</p>

Articles: Title	Author(s)	Year & Publisher
Preventing Seclusion & Restraint in Residential Programs	J. LeBel, K.A. Huckshorn, & B. Caldwell	2014; Routledge
<p>This chapter briefly reviews the history of restraint and seclusion in residential facilities and the authors' experiences implementing the 6 Core Strategies (6CS) to reduce restraint and seclusion R/S; including many practice examples of facilities working to decrease R/S in their programs.</p>		
<p>LeBel, J., Huckshorn, K., & Caldwell, B. (2014) Preventing seclusion & restraint in residential programs. In G. Blau, B. Caldwell, & R. Lieberman (EDs) <i>Residential interventions for children, adolescents, and families: A best practice guide</i>. New York, NY: Routledge.</p>		
Responding to childhood trauma: The promise and practice of trauma informed care.	G. Hodas	2006; PA Office of MH & Subs Abuse Servs.
<p>From the level of the individual child and family to specific child-serving programs to the broader arena of policy, the recognition of the pervasiveness of trauma and the consequent provision of what is known as "trauma informed care" will need to significantly influence our work in mental health and related fields in the future. This report works to increase appreciation of the relevance of trauma in understanding clients and meeting their needs while in care.</p>

Shelter from the Storm: Trauma-Informed Care in Homelessness Services Settings	E. Hopper, E. Bassuk, and J. Olivet	2009; The Open Health Services & Policy Journal
<p>This article explores the evidence base for TIC within homelessness service settings, including a review of quantitative and qualitative studies and other supporting literature. The authors clarify the definition of Trauma-Informed Care, discuss what is known about TIC based on an extensive literature review, review case examples of programs implementing TIC, and discuss implications for practice, programming, policy, and research.</p>

Strengths and Secondary Trauma in Family Violence Work	H. Bell	2003; Social Work Journal
<p>A recent body of literature has proposed that counselors who work with trauma survivors are susceptible to secondary trauma, a form of work-induced posttraumatic stress disorder (PTSD); i.e. negative reactions of helping professionals specific to their work with trauma survivors. This article explores the utility of the strengths perspective as a conceptual framework for research in a qualitative study of secondary trauma with counselors of battered women.</p>

<p>Learning from each other: Success stories and ideas for reducing restraint / seclusion in behavioral health</p>	<p>SAMHSA TA Package</p>	<p>2003; American Hospital Association</p>
<p>This booklet is full of ideas for creative approaches that both clinical and administrative staff members can take today to create and maintain a culture of safety that will lead to improved patient satisfaction and improved quality of care. The goal was to identify a body of high-quality clinical and operational information related to restraint and seclusion that can be shared with the field. The document was developed with extensive input from behavioral healthcare providers throughout the country - front-line staff members, clinical leaders, behavioral health administrators, and system executives who have been working directly with their patients and their staffs to reduce the use of restraint/seclusion and to improve care within their facilities.</p>		
<p>APA, APNA, & NAPHS, (2003) Learning from each other: Success stories and ideas for reducing restraint / seclusion in behavioral health. Washington, DC Retrieved online Dec. 13, 2011 from http://www.aha.org/content/00-10/learningfromeachother.pdf.</p>		
<p>The Trauma-informed Toolkit: A resource for service organizations to deliver services that are trauma-informed</p>	<p>Ed. T. Wall</p>	<p>(2013); Klinik Community Health Centre, Winnipeg, MB Canada</p>
<p>A toolkit to help organizations increase their capacity in delivering trauma-informed services; including definitions, guidelines, etc. for working with trauma. <i>(Write more here)</i></p>		
<p>Wall, T (Ed) The trauma-informed toolkit: A resource for service organizations http://trauma-informed.ca/wp-content/uploads/2013/10/Trauma-informed_Toolkit.pdf</p>		
<p>Trauma informed care (TIC) planning guidelines for use in developing an organizational plan</p>	<p>K. Huckshorn</p>	<p>2009; NASMHPD</p>
<p>This document is a template/checklist for use in designing a trauma-informed system of care that incorporates a prevention approach, operationalizes the core principles of trauma-informed-care, and follows a philosophy of continuous quality improvement. The guidelines can also be a monitoring tool for evaluating implementation of trauma-informed principles.</p>		
<p>Huckshorn, K. (2009) <i>The trauma-informed care (TIC) planning guidelines for use in developing an organizational plan</i>. Alexandria, VA: National Association of State Mental Health Program Directors. <p>Trauma-informed Organizational Toolkit for Homeless Services</p>	<p>Kathleen Guarino, Phoebe Soares, Kristina Konnath, Rose Clervil, & Ellen Bassuk</p>	<p>2009; Center for MH Services, SAMHSA, US DHHS</p>
<p>The NCFH created this toolkit to provide programs with a roadmap for becoming trauma-informed. The toolkit offers homeless service providers with concrete guidelines for how to modify their practices and policies to ensure that they are responding appropriately to the needs of people who have experienced traumatic stress. The toolkit includes: 1) a trauma-informed organization self-assessment; 2) a user’s guide to implement the results of their self-assessment and what it means to provide T-I-C; and 3) a ‘how-to’ manual with concrete steps to take in becoming trauma-informed.</p>		
<p>Guarino, K., Soares, P., Konnath, K., Clervil, R., and Bassuk, E. (2009). <i>Trauma-informed organizational toolkit for homeless services</i>. Rockville, MD: Center for Mental Health Services, Substance Abuse and Mental Health Services Administration, and the Daniels Fund, the National Child Traumatic Stress Network, and the W.K. Kellogg Foundation. Available at www.homeless.samhsa.gov and www.familyhomelessness.org</p>
