

Health and Safety at TNOYS' 40th Annual Conference

Last Updated [May 2, 2023]

After the success of our first in-person conference after 2 years in 2022, we are so thrilled to get together in person to collaborate and connect at TNOYS' milestone 40th Annual Conference!

The TNOYS Team is dedicated to protecting the health and safety of our attendees. We are following the local health guidance based on the current COVID-19 threat level ahead of the conference and will update this document as necessary to reflect the latest information. See [here](#) for the latest COVID-19 tracking data for Harris County, TX.

We will implement safety protocols to protect conference attendees and staff including following the local mask guidelines based on the [current threat level](#) and ensuring the availability of masks and hand sanitizer. All conference attendees should prepare to follow these protocols as well as [any venue guidelines](#) to ensure their full participation in the conference.

In abundance of caution, we ask that any persons who have traveled to highly-impacted areas, been exposed to confirmed or suspected cases of COVID-19 or other emerging viral diseases, or have been diagnosed with COVID or other emerging viral diseases (and not cleared by a state or local health authority) within the 14 days immediately prior to the conference, do not attend. Any registrants who experience symptoms or contract COVID-19 ahead of the conference and are not cleared by a state or local health authority, may receive a credit to attend next year's conference. Please contact annualconference@tnoys.org for more information.

We appreciate your help ensuring that all of us can safely gather to share, learn and collaborate for the benefit of Texas' youth and families. Enjoy the conference!

Please contact us at annualconference@tnoys.org or 512-815-3299 for any questions.
