Can youth and young adults attend the conference? What are their registration options?

Yes! Youth engagement is an essential part of TNOYS' Annual Conference on Services to Youth and Families. This year's conference will once again welcome youth and young adults (ages 16-24) to attend alongside youth and family services professionals. TNOYS also engages youth and young adults as planners, presenters, and performers throughout the event.

Youth registration is \$50 per individual, which includes full access to both the virtual conference day (May 18) and the in-person conference (June 14-16). Youth and young adults are not permitted to register for Pre-Conference Institutes.

The in-person conference offers exclusive sessions and activities for youth and young adults (YYAs), including:

- A youth leadership track on Wednesday, June 14 that features a variety of skill-building sessions designed for young people;
- A youth-only lounge where YYA attendees can safely store their belongings, recharge between sessions, and participate in games and activities with their peers;
- And an optional youth-only lunch on Wednesday, June 14.

Additionally, the virtual and in-person conference offers dozens of sessions designed specifically for young people and professionals to learn alongside one another.

Please note that TNOYS is not responsible for supervising the youth and young adults (YYA) who register for this event. To ensure the safety of YYA in attendance, TNOYS requires at least one registered adult per ten youth/young adults. This chaperone is not required to accompany the YYA throughout the full conference, but they should assume responsibility for the actions and whereabouts of the YYA in their care.

What are Pre-Conference Institutes?

Pre-Conference Institutes are full-day (4-6 hours) training sessions on an in-depth clinical skill or evidence-based tool or approach taking place Tuesday, June 13 at the Hilton Houston North in Houston. TNOYS typically offers 2-4 institute options that reflect the latest research, trends in the field, and priorities among youth-serving providers. Pre-Conference Institute participants typically walk away with a certification in a tool, practice, or skill, in addition to CEU credit hours.

Space is limited for all Pre-Conference Institutes, and separate registration is required. Check out the [Pre-Conference Institutes page](#) on the conference website to learn more, and register through the [online registration form](#).

Conference Logistics and Location

Where can I find a detailed conference schedule?

You can find the conference schedule on the [Programming page](#) of the conference website. We'll also release the conference program in late March. [Sign up for our newsletter](#) for the latest updates on what we have in store!

What can I expect at the virtual conference day compared to the in-person event?

The virtual conference day takes place on Wednesday, May 18 from approximately 9 a.m - 5 p.m. The virtual day experience will feature a live keynote address and offer 12+ live workshops on various topics relevant to the youth services field. We will once again use the virtual event platform Whova, through which attendees can easily join live sessions from anywhere, chat with exhibitors, participate in community board discussions, compete in games for the chance to win prizes, and set up virtual meetings with other attendees. Virtual registrants will gain access to the event app approximately one week before the virtual conference day, providing exclusive access to networking tools, session previews, and more.

The in-person conference will take place Wednesday, June 14, through Friday, June 16, at the Hilton Houston North in Houston. Over 2.5 days, the in-person event will feature four engaging keynotes, over 40 dynamic workshops, and the energy and fun you've come to expect from TNOYS' Annual Conference. In-person-only registrants will gain access to the event app **after** the virtual conference day has concluded. This means that ALL registrants will have access to the event app by the week of the in-person conference, providing even more opportunities for you to network with your peers, check out the virtual exhibit hall, and earn points for the chance to win one of our amazing prizes.

Some of the sessions offered at the virtual conference will overlap with those available at the in-person conference, but most will be distinct, offering flexibility as well as variety in the way you attend both events and earn the maximum CEU credit hours available. We recommend the **All Access Bundle** experience which includes up to 20 CEU credit hours, up to 25% more workshop offerings, increased opportunities to network, and so much more!

How do I access and use Whova, the virtual event platform and event mobile app? Will I use Whova if I am only attending virtually or only attending in person?

All attendees (virtual or in-person) will have access to the virtual event platform, Whova. Whova is easy to use and can be opened on your desktop or in the Whova mobile app. We recommend that virtual registrants participate via the Whova web app and in-person registrants

participate via the Whova mobile app. Registrants will gain access to the event app via email approximately one week before attending the conference. Before the event, the TNOYS team will provide a detailed Attendee Guide with instructions and tutorials for using Whova as a virtual or in-person participant. We will also have staff available throughout the conference to help troubleshoot any technical issues.

From the Whova platform, attendees can easily customize their agendas, chat with exhibitors, participate in community board discussions, network and set up virtual or in-person meetings with other attendees, and participate in engaging games. Attendees will also use Whova to sign into sessions, access important resources, receive event updates, and more. Virtual attendees will use Whova to join all live or recorded conference sessions. Stay tuned for TNOYS' Complete Guide to Whova, coming spring 2023.
